

Occupational Therapy

Individual Support

Our experienced Occupational Therapy team supports children and young people to develop their fine and gross motor skills, cognitive skills, social skills and independent living skills in order to be successful in their daily lives.

Intervention is delivered through individual and group programs targeting key skill areas of development including pre-braille, pre-writing, self-advocacy and school readiness.

Tailored programs can also support children around sensory processing difficulties, sleep issues and toilet training.

Individual Support

Target Group

Children aged 0-18 years with a sensory impairment

What to expect

Individual support is provided by a qualified Occupational Therapist who has specialist training in working with children who have a sensory impairment.

Our Occupational Therapists work in a variety of ways including:

- Providing individual therapy
- Working in small groups
- Working within educational settings
- Developing home based programs
- Providing resources and information

Sessions may occur weekly, fortnightly or monthly.

Aims of the program

Individual support is targeted at developing the underlying skills required for effective functioning in the home and school environments, and may work to develop:

- Sensory processing
- Social skills
- Attention and concentration
- Gross motor skills
- Fine motor skills
- Self-help skills
- Problem solving, planning and organisation

Goals of the program

Goals are individually negotiated with the child, their family and educators.

Outcomes

Outcomes may include;

- The development of a range of skills required for successful participation at home and school.

Occupational Therapy

Individual Support

Eligibility Criteria

Families must be registered for services with Can:Do 4Kids.

Staff

Occupational Therapists are allied health professionals who promote health and wellbeing. They focus on assisting individuals to reach and/or maintain the highest level of independence and function in all aspects of their lives.

Can:Do 4Kids Occupational Therapists work as a part of a multidisciplinary team alongside Early Intervention Consultants, Speech Pathologists, Assistive Technology specialists, Child and Youth Development Consultants, Orientation and Mobility specialists, Physiotherapists, Social Workers and Audiologists.

Locations

An Occupational Therapist may see a child/young adult:

- In the classroom
- In the home
- In the community
- At one of our clinic locations

Referrals

Families can contact Can:Do 4Kids directly or with a referral from NDIS, your GP, Specialist or school.

Funding

Can:Do 4Kids are registered to provide services under a variety of funding models including National Disability Insurance Scheme (NDIS), Medicare, Private Health and self funded.

If you are unsure of your eligibility, or would like to discuss the best funding method for your child please contact us for further information.
